1962	1,244,750,000	477,037,000	931,717,000
1963	1,398,720,000	458,431,000	1,048,697,000

[1] Includes all Canadian products exported through British Columbia Customs Ports, irrespective of Province of origin.

[2] Includes all products imported through British Columbia Customs Ports, irrespective of Province of destination.

The Department of Industrial Development, Trade, and Commerce is **ready** to assist you—

- on plant location, and can provide specific information on planned industrial sites and other requirements.
- in providing composite industrial maps showing land zoned for heavy and light industry in the Vancouver metropolitan area and other areas of British Columbia.
- in obtaining information regarding source of supply for raw materials.
- in exploring export markets for goods manufactured in British Columbia.
- in obtaining reliable agents for manufacturers and exporters wishing representation in British Columbia.
- in providing information on the services offered by the British Columbia Research Council concerning industrial and scientific research.
- in the analysis of market research problems.
- in furnishing regular statements relating to current economic conditions.
- in the preparation and analysis of freight-rate material.
- in providing external trade statistics to exporters and importers and interested businessmen.
- in making surveys of an economic or statistical nature.

Department of Industrial Development, Trade, and Commerce

Parliament Buildings, Victoria, B.C.

INTRODUCTION

The continued demand for a listing of firms in the wholesale and related trades, which could be made available throughout the Province and to interested parties elsewhere in Canada and in other countries, has led to the compilation and publication of this Directory.

The Directory lists wholesalers and distributors, exporters and importers, and the products which they handle. There is also a list of manufacturers' agents. It will therefore form a companion edition to the British Columbia Trade Index, which lists British Columbia manufacturers and their products.

The information contained in Parts I to VI has been compiled from returns sent in by the firms themselves wherever possible; secondary sources were used only if a firm neglected to report. Part VII was compiled from secondary sources.

An employment indicator is included in the alphabetical listings of firm names. The coding is detailed on the lead page of the relevant sections.

The commodity code used is of a general rather than specific nature. For example, "Household Appliances" includes refrigerators, stoves, washing-machines, etc., whether electric, gas, or other means of power.

Every effort has been made to list all the branches of each of the firms throughout the Province. An exception has been made in the case of the various petroleum distributors because it was found that they maintain agents in nearly every community in the Province.

We would like to extend our appreciation to those firms answering our questionnaire, because they have made this publication possible.

M. H. A. GLOVER,
Director, Bureau of Economics and Statistics,
Department of Industrial Development,
Trade, and Commerce.

Parliament Buildings,
Victoria, B.C.
